

**Writing Tutor IV (This is an in-house program  
available only at Kent Campus)**

**L-8**

The Writing Tutor IV program covers the areas of paragraphs, sentences, grammar, usage, mechanics and parts of speech. It provides students with four ways to work with the lessons within these areas:

- *Selecting Exercises*, which enable the student to select the correct answer between two choices
- *Highlighting Exercises*, which require the student to highlight certain words in a sentence.
- *Sentence Exercises*, which allow the student to revise or complete sentences
- *Paragraph Exercises*, which permit the student to revise or complete paragraphs

In terms of difficulty, *Selecting* is usually the easiest while *Highlighting*, *Sentence*, and *Paragraph Exercises* get progressively more difficult.

Writing Tutor IV also allows the student to get a description of the topic of the lesson they are working on by selecting *More Information*. In addition, students may select *Rule/Example* as a reminder during their work. The program has the capability of showing students their score on a given lesson and allows them to print or erase the score.
