Community College Survey of Student Engagement

BENCHMARK OVERVIEW

Benchmarks of Effective Educational Practice

CCSSE reports survey results in two ways: national benchmarks — areas that educational research has shown to be important in quality educational practice — and students' responses to individual survey items. The five benchmarks are:

- ★ Active and Collaborative Learning
- ★ Student Effort
- ★ Academic Challenge
- ★ Student-Faculty Interaction
- ★ Support for Learners

Florida State College 2009 Benchmark Scores

FSCJ Benchmark Summary

Benchmark scores are standardized so that the mean across all schools participating in CCSSE is 50.

Active and Collaborative Learning

Students learn more when they are actively involved in their education and have opportunities to think about and apply what they are learning in different settings. The seven survey items that contribute to this benchmark are:

During the current school year, how often have you:

- ★ **Asked questions in class or contributed to class discussions**
- ★ **Made a class presentation**
